MONTHLY HIGHLIGHT

WOMEN IN STEM SCHOLARSHIP

North Carolina scores a top spot for employment of women in the tech industry: an impressive #2 behind the state of Maine (Source: NC State of the Technology Industry Report). While this ranking is something to be proud of, the percentage of women in tech is only 36.5% for North Carolina.

NC TECH supports women in STEM through programming and the annual Summit for Women in TECH, but also through efforts around career exploration for students through initiatives such as Code.org's Hour of Code and First Robotics and the Betsy Y. Justus Founders Scholarship. The scholarship application is now open to high school seniors, headed to an NC college or university, with an intent to study information technology or engineering. Please share with parents/students, as well as with any organizations with which you may be involved that can help amplify the opportunity. Winners are awarded $4,000 ($1,000/year) and a Lenovo laptop.

Full details and application can be found on the NC TECH Scholarship Webpage.
Deadline for application: May 31, 2023.

RESEARCH UNDERWRITERS

With the support of underwriters, NC TECH commissions + releases research on the state's tech sector for the benefit of our members, and as a resource for policy makers, economic development leaders, and the media. Thank you to the 2023 Research Underwriters. For more information about becoming a Research Underwriter, visit nctech.org/research and select the Underwriter's Menu button.
