MONTHLY HIGHLIGHT

EMBRACING THE STRENGTHS OF REGIONALISM AND COLLABORATION

A recent report from Research Triangle Institute International, a member of NC TECH, titled "Federal Funding Applications and What They Tell Us About the Future of Economic Development in North Carolina," sheds light on North Carolina's collaborative spirit. Researchers examined how groups across the state are now teaming up for grant applications, emphasizing regional strengths.

The analysis of recent applications reveals a shift in leadership focus. The applications focused more on tackling North Carolina's big economic, social, and environmental challenges together, with a strong emphasis on working regionally and collaboratively. Interestingly, while location remains important, leaders are prioritizing innovation and leveraging existing assets. Want to learn more? Read the full report from RTI International.

RESEARCH UNDERWRITERS

With the support of underwriters, NC TECH commissions + releases research on the state's tech sector for the benefit of our members, and as a resource for policy makers, economic development leaders, and the media. Thank you to the 2023 Research Underwriters. For more information about becoming a Research Underwriter, visit nctech.org/research and select the Underwriter's Menu button.
